Run# 908 – July 28th 2016

Hares: Cum See My Box & Chips A Whore

Location: Bower Mall, East Side

Prelube & On On: Tilted Kilt

Scribe: Sir Nookey

The 908th run occurred on Thurs. July 28th, at the East side of Bower Mall. Our Hare was **Cum See My Box**, ably (?) assisted by **Chips A Whore**. For this run, the hare had devised some obscure markings which she tried to explain to the 25 or so gathered Hashers. "When you come to a _____, that is a check and this _____ is a false trail. Then you may find one of these _____ or some of these _____." By this time she had most of us pretty well convinced we'd never find our way back, never mind the Hash Hold she'd promised! Anyway our beloved RA, **Chips**, invited the sweet little virgin, **Lindsay**, into his circle along with a visitor, **Restricted Entry**, from 'way up north and then we introduced ourselves to them. Fortunately some of our more unsavory members, like **Pleasure Chest**, **Wee Little Bladder** and **Urine My Way** were apparently too drunk or more likely incarcerated to attend!

Then the pack headed out in a rush, runners in one direction following God knows what marks they could barely find, walkers in another direction into the nearby Kin Canyon, **Dripping Wet Gap** and **Slippery When Wet** being the FRB's. Perhaps they ran fast as they were searching for marks on trail. Oops, this was a false trail. **Cum Ear** and **Lindsay** took over as FRB's only to lead the pack down another falsie. Pair of falsies on the run? Say it isn't so!

Mustang Sally, **Miss Daizey** and **Hymen Trouble** got the walkers going on a warm up walk, while our intrepid "driving" hare **Sir Nookey**, lounged around at the start, just watching all the boobs bounce past as the pack looked for the right trail. **Don't Know Dick** joined the walking pack, toting a mug of Keith's to keep her tits from freezing. It was not a day for exposing **Schweaty Ballls** unless you wanted to get **Rose**. A perfect day for **Hymen Trouble**, so there she was _ **Slippery When Wet**. Luckily the rain held off so a good time was had by all (except for **Pucker Sucker**, **Broken Boner** and **Master Baiter**, so they had to drink from the PLANK!)

Everyone finally arrived at the hash hold, even most of the runners, **Chips A Whore**, **Sir Cums A Lot** and **Bust a Nut** caught up at last having "long-cutted" on another trail!

Eventually we all found our way back to Bower Mall, where we enjoyed yet more yummy swill, and most of us deserving hashers got down-downed for various reasons.

Then it was off to the Tilted Kilt for the On-on, except for your faithful Scribe and his lovely companion, **Restricted Entry**, who drove off into the darkening night back to Edmonton with nary a drop of rain or hail to spoil an awesome visit to my favorite hash, Red Deer H3! See you all at Camp U's 10th Anniversary edition, and don't miss **Wet Denim's** and my run in August!!
