“Never Let the Truth or Libel Laws  
Stand in the Way of a Good Story”

Run #976– Nov. 16<sup>th</sup>, 2017

Hare(s): **Capt' Pissup**

Location: Behind dumpster @7/11

Prelube: East 40<sup>th</sup>

On On: East 40<sup>th</sup>

Scribe: **Chips A Whore**

I arrived late to the prelube at East 40<sup>th</sup> and as I pulled up I saw a person standing out behind the 7-11 freezing their ass off. As the good natured hasher I am I went over to check on them and low and behold it was not some unfortunate person but it was the long lost **Capt Pissup**, oh yeah he is the hare for this run. I asked him why he was not in the pub with the others and he told me he didn't want anyone to steal his new curtain rod adjustable hash flour-dispensing can with turn crank adjustable height function. He could not go into the pub with it and didn't want to risk someone stealing his design before patents released. It was quite a clever invention. As the prelubers emptied out of East 40<sup>th</sup> and the circle formed we were pleased to see a great turnout including a virgin – **Julia**. This night had well over a dozen runners and only 5 walkers. **Capt Pissup** showed up the markings, appointed me scribe and sent the runners off ON ARROW to the southeast.

Tonight I was walking and soon after the runners got out of sight **Capt Pissup** forced us to erase the arrow he drew and he put a new one down pointing the exact opposite direction.

He threatened us with not leading us to the hash hold. It seemed like hours of deliberation weighing pissing the runners off at the expense of not getting beer. In the end we had to make a choice knowing the runners were very competent and would find their way.

Off we went in the opposite direction and got to see the **Capt's** new invention in action as he set trail while we walked. He told us that he had already set trail but we struggled to find the sporadic marks he bragged about. I will say as far as walks go the scenery was great and the company was also great. **Wee Little Bladder, Don't Know Dick, Cum See My Box** and **Capt Pissup** were a hoot as we trekked through the trail system and made our way to Rotary Park.

I continually looked back for the runners to see when they would catch up to us all this did for me was strain my neck as we arrived at the Hash Hold. We saw runners across the street and screamed HASH HOLD many times but they kept staring at us. Turns out there were a competitive running group who probably doesn't even like beer..... **Capt** unconcerned with missing runners grabbed a full jerry can of gas and sparked up a massive bonfire.

**Don't Know Dick** became jealous from her recent corn maze where she forgot her lighter to start her fire. The **Capt** does not piss around!!!

We had delicious beer, chips, shots, orange food group and countless other items. He really went all out we were in a euphoric state of mind when a phone call came in.

Apparently the runners got lost. We had to disclose where we were and they refused to finish trail. We spent another 20 minutes down there each had another beer and relaxed enjoying our hash hold. **Capt** arranged for a limo back to the start of the run so we jumped in and made our way back. When we pulled up there was a group of hashers who did not look happy. The **Capt** was punished for lack of flour on the running trail (although I saw him use quite a bit setting trail while we walked) he was rewarded for setting such a great walking trail. **Pucker** was given phantom drinks for her birthday and for getting lost. **Slippery** was doused for leading everyone on trail that was actually paint set down from the city. **Cum Honor** kept the circle up quick as the runners were quite cold.

ONON to East 40<sup>th</sup> and free pizza.

Many showed at the ONON including Nail Me and **Flying Low**.

A great end to great walk, happy I didn't run tonight!!!

Walk of the Year!!
